INDEX OF NAMED HIGHWAYS

LISTED ALPHABETICALLY BY STATES
WITH OLD COLOR MARKINGS AND NEW ROUTE NUMBERS
AS MARKED BY STATE HIGHWAY DEPARTMENTS

EXPLANATORY NOTE

The Highway Commissioners of the New England States have agreed upon a uniform marking system for state highways. Interstate routes bear numbers under 100, and local state routes bear numbers over 100 preceeded by the abbreviation for the State. In general, east and west routes bear odd numbers, and north and south routes even numbers. The marker consists of a black numeral on an orange background with black bands above and below.

MAINE

- Aroostook Trail.** Waterville to Ft. Kent via Bangor & Houlton. Pgs. 40, 41, 36, 31, 29, 28. Old markers, blue-white. On Route 1 Waterville to Bangor, on Route 15 Bangor to Houlton, on Route 24 Houlton to Fort Kent.

The pages for New Hampshire in this book were
taken from **THE OFFICIAL MAP OF
VERMONT AND NEW HAMPSHIRE**

The big map is on a somewhat larger
scale than these pages.

Size 4 x 3 ft.

FOR STYLE OF MOUNTING
SEE PRICE LIST ON PAGE 1

**THE NATIONAL SURVEY MAP
OF NEW ENGLAND**

Size 32 x 44 inches

Shows the entire New England
area (except northern and eastern
Maine) on one sheet.

Drawn on the same plan and
with the same care as the maps of
the OFFICIAL series, but with the
omission of much purely local de-
tail, for the sake of clearness.

Published in paper folder, cloth
folder and all wall forms at prices
listed on front fly page.

Sent postpaid on receipt of price.

**THE NATIONAL SURVEY
CHESTER, VERMONT**

Besides the four regular forms listed ON PAGE 1,
The Official Map of Maine is also published in sectionized or book
form, which includes the White Mountain region of New Hamp-
shire. Size of book form 5 x 9 inches.

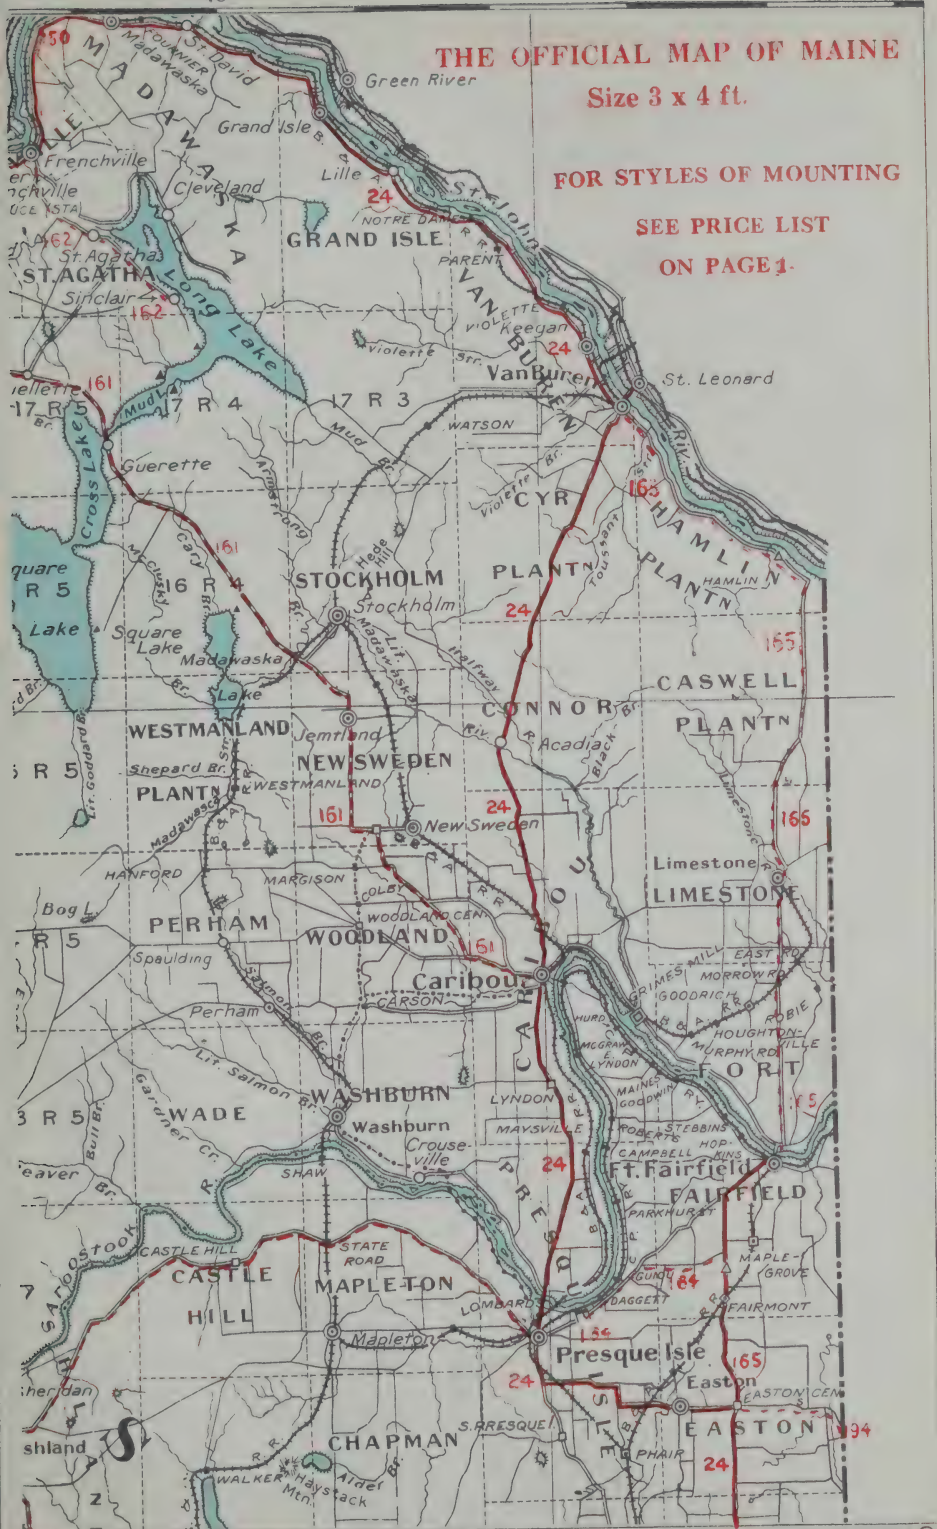

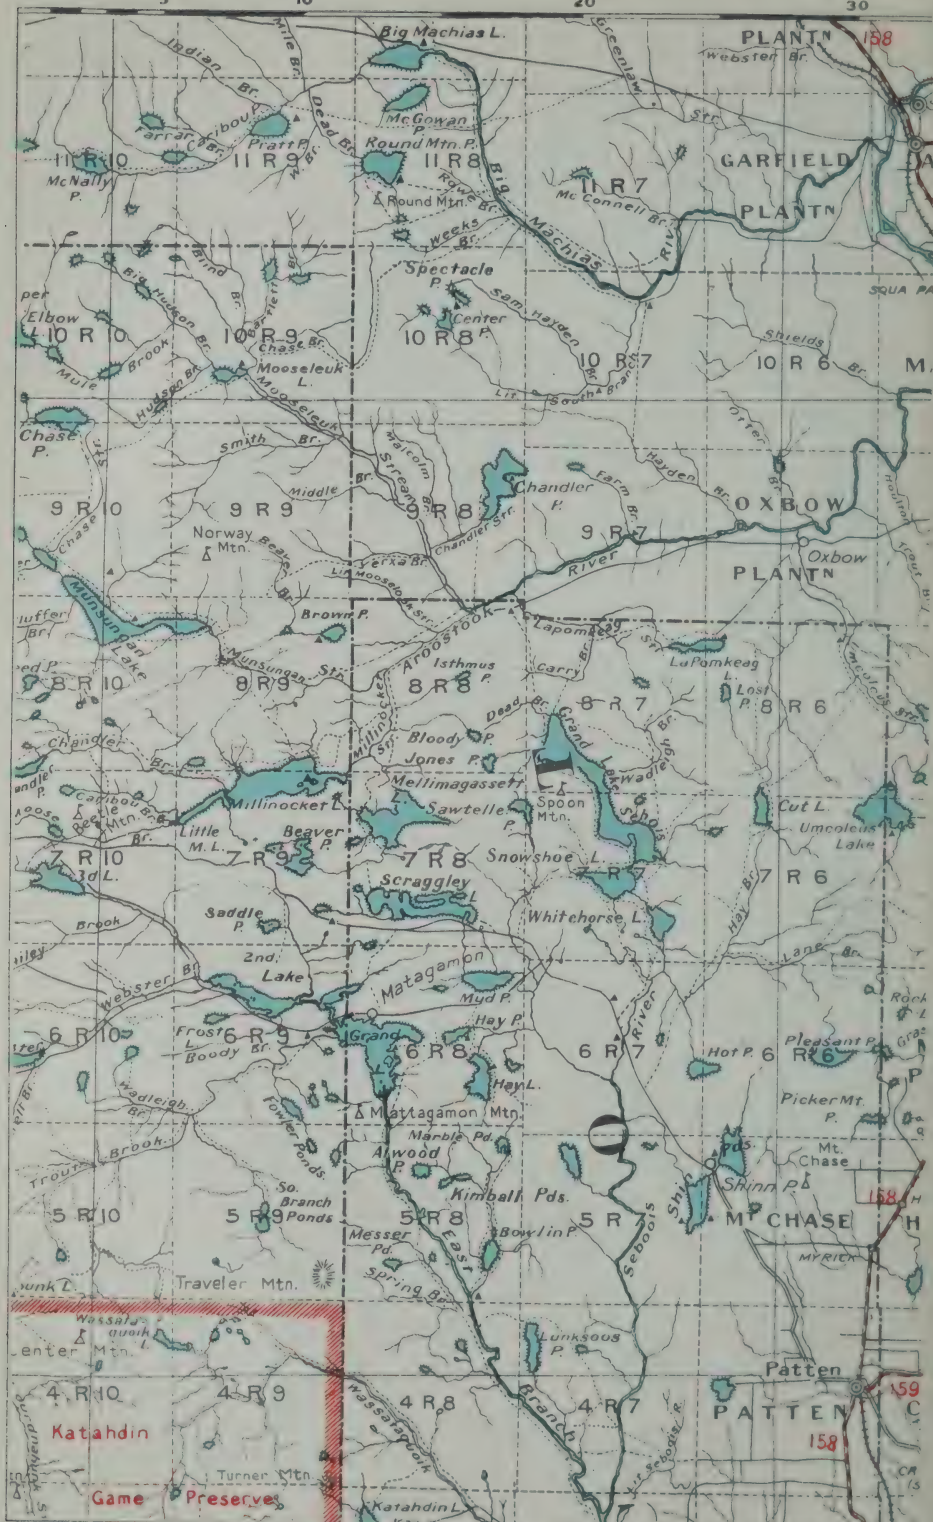

THE OFFICIAL MAP OF MAINE

Size 3 x 4 ft.

FOR STYLES OF MOUNTING

SEE PRICE LIST
ON PAGE 1.

THE OFFICIAL MAP OF MAINE

Size 3 x 4 ft.

The most accurate map of Maine ever published. Shows location of licensed hunting camps and State fire look-out stations in addition to the regular details shown on all our "Official" maps.

Besides the four regular forms The Official Map of Maine is also published in sectionized or book form, which includes the White Mountain region of New Hampshire. Size of book form 5 x 9 inches.

The pages for Maine in this book were taken from the above map. The big map has an additional color plate emphasizing township, county and state boundary lines.

70° 30'

FOR STYLE OF MOUNTING SEE PRICE LIST ON PAGE 1

The New England Area is also covered by three separate maps as follows:

THE OFFICIAL MAP OF MAINE.

THE OFFICIAL MAP OF VERMONT AND NEW HAMPSHIRE.

THE OFFICIAL MAP OF SOUTHERN NEW ENGLAND.

Size of each map, 3 x 4 feet.

These maps show the same detail as the sectionized editions and are published in several forms as per Catalogue and Price List opposite Page 1.

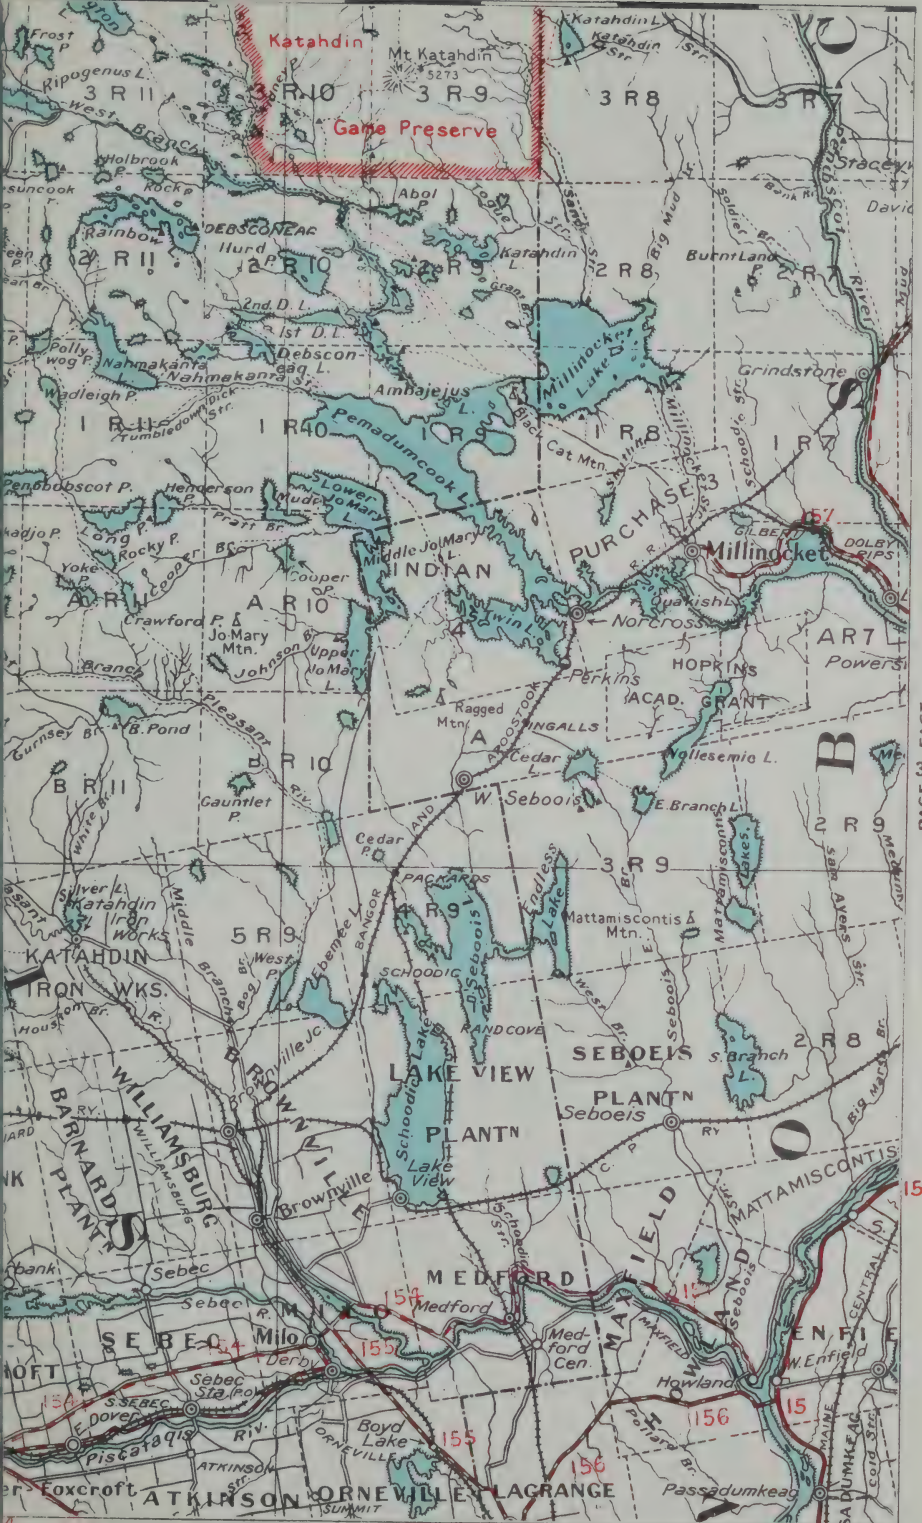

Sent direct on receipt of price.

SUGGESTIONS

HOW TO USE THIS BOOK

To find a place, the general location of which is known to you, refer to the key map pasted into the front cover. The numbered rectangles give the areas covered by each map page. It is much quicker to refer to the key map than to hunt through the pages for a map of the desired area.

If you do not know even the general location of a place, refer to the alphabetical index in the back of the book. It will give you the page number and the position on the page.

If you want a map of the area north, south, east or west of a particular page, do not bother even to refer to the key map. The numbers of pages showing adjoining areas are always given on the margin of the page.

Pages are arranged in grids, like a checker board, and are numbered from left to right and down the page.

Note that pages over-lap. Every town shown adjacent to the margin of a page is repeated on the page showing the adjoining area.

In planning a trip, use the key map. It gives the best routes and the distances between the principal towns and highway junctions.

Signs and symbols are fully explained on page 2. This is valuable information, prepared at great expense, and the user of this book, to get full value, should familiarize himself with the system of symbolizing.

PUBLISHER'S EXPLANATION

The series of maps contained in this volume has been built up and perfected over a long period of years. As these maps show every highway within the area which they embrace, and a vast amount of other detail now shown on ordinary maps, the labor of preparation and the possibilities for error have been thousands of times greater than on an ordinary "road map" or "guide book." Such publications usually confine their attention to main traveled routes, a simple and inexpensive proposition compared to the preparation of maps of such detail as those contained within the covers of this book. It is inevitable that in so tremendous an undertaking errors will occur. It is not the absence of error, a condition which can never be achieved in map making, but the remarkably small percentage of errors compared with other publications that has placed National Survey maps in a class by themselves for accuracy and completeness of detail.

Whenever an inaccuracy or an omission is discovered by the user of this book, the publishers will count it a favor to have the matter brought to their attention, and particularly request that in such cases as definite and specific information be furnished as possible, to make an immediate investigation and correction of the error possible. While over a thousand local officials have checked over the maps for their various districts and co-operated with us in the accumulation of data in this particular volume, a work of so large a magnitude never becomes perfected to such a point that additional revisions may not be made to good advantage.

In preparing this series of maps no effort or expense has been spared in striving for completeness and accuracy. The observing user of these maps will quickly recognize that they represent a labor of love, and not simply an effort at money making.

A word of explanation regarding the cost of preparing these maps is pertinent, because we find that some customers are momentarily deceived as to value by the relatively small size of this book of maps compared with the thickness of various automobile books containing advertising matter. The bulk of such books is made up largely of ads; and the cost of preparing typed running directions over main routes is trifling compared to the cost of preparing complete detailed maps of scientific accuracy which cover everything and serve a man equally well when he is off on a detour or back in the wilds on a fishing trip. Furthermore, these maps are lithographed in colors, and as each color has to be printed from a different plate as a separate operation, this adds greatly to the cost. Every effort has been made to keep the bulk of these volumes down, and therein lies one of the great advantages of maps over running directions, in that

they give more complete and detailed information in a much more portable and compact form.

The publishers wish particularly to call to the attention of the purchasers of this volume the fact that the purchase price does not represent simply paper, printing and binding, which were a comparatively small item in the total cost of preparation of this book. By far the larger proportion of the price paid for these maps is paid for **service**, or, in other words, for the professional services and expense involved in making the maps and in keeping them constantly revised and up to date. The cost of this service would be many times the sale price of the maps were it not for the fact that by unique methods of distribution, resulting in very large editions, the cost of this service is distributed among so many customers as to make it fall lightly upon each.

In order to get this large distribution we do not depend upon ordinary retail channels alone, but make a systematic man-to-man canvass throughout the entire area covered by the maps. This work is carried on by a body of especially trained men who work on a combined salary and commission basis in exclusive territory. It is composed largely of college students who work during their vacations, but as the sales force is constantly enlarging there is usually an opportunity for other men who are suitably qualified. These men receive a thorough training at the hands of experienced salesmen, they operate under the field management of an experienced salesman during their first season, and at all times are under the direct management of a trained executive in the office. The high quality of the product, its great practical usefulness for travel and for reference, and the comparatively small figure at which it is priced, result in very large sales, and consequently large earnings for the men engaged.

As the work of The National Survey is constantly enlarging, the publishers will be glad at any time to hear from customers who, as a result of use of the maps and recognition of their very great value and salability, may be interested in an opportunity to join the sales force of the organization.

If interested in this opportunity, fill out, detach and mail the blank on the opposite page.

Date.....

The National Survey,
Topographical Offices,
Chester, Vermont.

Gentlemen:

I am interested in the possibility of securing a position on your sales force, and request that you send, without obligation to me, information about the work. In the meantime, I submit the following information, with the understanding that it does not commit me in any way to accept a position if offered:

Age?.....Nationality?.....Married or Single?.....

Education?

Present employment?.....

Previous experience?.....

Do you desire full time or part time work?.....

How far from home would you be willing to go if given a position?.....

.....

.....

On what date could you start work?.....

Home address?.....

Present address?.....

Telephone number?.....

Name.....

THE HOME OF THE NATIONAL SURVEY

Above is an advertising map illustrative of one of the many kinds of special map work we are equipped to do. You will notice that according to this map, "All roads lead to Chester." Let us get up a map for you. We can show your town as the center of the universe!

All users of NATIONAL SURVEY maps are invited to visit our Topographical Offices when passing through Chester. You will find our delightful little Inn a fine place to stop.

THE NATIONAL SURVEY, CHESTER, VERMONT

MAP MOUNTING

We are in a position to furnish any kind of map mounting to order. We will supply not only our own maps, but any map on the market, mounted in any way desired.

SPRING ROLLER CABINETS

Our Spring Roller Cabinets contain a window curtain roller. The map is cloth backed and firmly attached to this roller. When out of use it rolls up within the cabinet, where it is entirely concealed and fully protected from dust or other damage.

MULTIPLE ROLLER CABINETS

Our Multiple Roller Cabinets contain a series of rollers mounted within one cabinet, containing slits through which the map is drawn, and which are entirely closed by the stick at the bottom of the map when it is rolled up, making the cabinet dust proof. Any desired number of rollers up to twelve can be supplied in one cabinet. This makes a very handsome and practical fixture for office, library or home use.

MULTIPLEX FIXTURES

These are metal frames, each frame holding maps on both sides. The frames are pivoted to a central standard. Standards may be supplied designed to stand on the floor or to be attached to the side wall. These fixtures are much more expensive than Spring Roller Cabinets, but are especially useful where it is desired to mount a large number of maps flat for use with tacks, etc., for frequent consultation. A special circular describing this fixture fully in its various forms and sizes will be sent upon request.

TACK BOARD MOUNTING

All of our maps can be supplied on tack board, and with a washable finish, if desired. We will mount any other maps in this manner to order.

THE NATIONAL SURVEY
CHESTER, VERMONT

WE ALSO PUBLISH A NEW OFFICIAL MAP OF THE UNITED STATES

Showing all main highways, as well as every railroad in the United States, with distances, populations, and a thousand other useful, interesting and educational features.

Especially useful in planning long trips either by car or rail or by steamer, because the best through routes are plainly distinguished.

The complete state highway systems are shown, as well as every railway and steamer line, and every place of over a thousand inhabitants in the United States is indexed and the population given.

Published in sectionized form like this book, or in fourteen other forms to fit every need and purpose.

Size	Style	Description	Price Each
64 x 42 Inches	No. 1	On tough paper, folding into 10-ply Photo Mount covers 5½ x 11	\$3.00
52 x 33 "	" 1B	The same map reduced to a smaller scale. Covers 5 x 10	2.00
64 x 42 "	" 2	Cloth mounted, folding into 10-ply Photo Mount covers 5½ x 11	4.00
52 x 33 "	" 2B	The same map and mounting reduced in size and scale	3.00
64 x 42 "	" 3	Wall form. Cloth mounted. Sticks top and bottom	5.00
52 x 33 "	" 3B	The same map and mounting reduced to a smaller size and scale	4.00
64 x 42 "	" 4	Wall form on Cloth with Spring Roller and Board Back	8.00
52 x 33 "	" 4B	The same map, reduced in scale, Spring Roller in Wooden Case	7.00
64 x 42 "	" 5	Sectionized, Book Form, Full Flexible Fabrikoid Bindings	3.00
64 x 42 "	" 5B	The same as above in a cheaper cover (paper, imitation leather)	2.00
64 x 42 "	Flat	Unmounted, rolled in tube	3.25
52 x 33 "	"	Reduced size, for desk top under glass, etc.	2.25
64 x 42 "	Flat	Cloth backed, rolled in tube	4.25
52 x 33 "	"	Reduced size, same as above	3.25
52 x 33 "	Tack Board	For use with map tacks, etc. (Supplied in this size only)	9.00

THE OFFICIAL MAP OF MAINE

Size, 3 x 4 Feet

THE OFFICIAL MAP OF VERMONT AND NEW HAMPSHIRE

Size, 32 x 44 Inches

THE OFFICIAL MAP OF SOUTHERN NEW ENGLAND

Size, 32 x 44 Inches

These are the three maps from which the pages in this book are taken, and they are, of course, exactly like the map pages in this book, except that they are printed in sheet form instead of in sections.

These maps have additional color overprints to emphasize township and county boundaries, and each map is indexed on the face of the sheet with the latest population figures.

They are supplied separately in the various folding and wall forms listed opposite the title page of this book, or they can be furnished as a group in a spring roller cabinet, each map mounted on a separate roller.

THE OFFICIAL MAP OF NEW YORK STATE

Sectionized in Book Form, or on One Sheet, 4 x 3 Feet

Made on the same plan as the Official Maps of New England, and showing the same complete detail. The sectionized edition is bound exactly like the New England volume.

The sheet maps have additional color overprints, emphasizing town and county boundaries, and are indexed on the face of the sheet, making them especially desirable for territory maps, etc.

THE OFFICIAL MAP OF THE WORLD

Size, 52 x 33 Inches

Drawn on the new "Orange Peel" projection, which practically eliminates distortion of land areas, and gives a true conception of the surface of the globe.

Exceptionally complete, beautifully lithographed in colors, and fully indexed on the face of the sheet.

An especially fine map for educational and reference use.

Mailed promptly to Any Address on Receipt of Price
